

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

XEROY VZEH
01804
YR0000

REPORT.

STATE OF VERMONT.

OFFICE OF SECRETARY OF STATE,
MONTPELIER, July 1, 1886.

TO THE GENERAL ASSEMBLY.

In compliance with the provisions of law, I have the honor to submit herewith the Twenty-ninth Annual Report relating to the Registry of Births, Marriages, Deaths, and Divorces that have occurred in the State during the year ending Dec. 31, 1885.

Very respectfully,

CHARLES W. PORTER,
Secretary of State.

CONTENTS.

TABLES.

	PAGE
I. GENERAL ABSTRACT. — Population in 1880, Births, Marriages, and Deaths, registered in each town, in 1885, distinguishing the sex and parentage of Births; the nativity of Marriages; the sex, aggregate and average ages; and the percentage of deaths	2-20
<i>Recapitulation.</i> — Births, Marriages, and Deaths by counties	21-22
<i>Supplement A.</i> — Plural Births by counties, by months, and by sex	20
<i>Supplement B.</i> — Illegitimate Births by counties, by months, and by sex	21
II. MARRIAGES. — By counties and by months	22
III. DEATHS ACCORDING TO AGE. — Showing the number of each sex at different ages in each town and county, with the population and percentage	23-69
<i>Recapitulation.</i> — Of Deaths, according to age and sex, with percentage	70-71
IV. CAUSES OF DEATH. — Alphabetically arranged, showing the number of each sex dying at different ages during the several months, with the various diseases	72-79
V. CLASSIFICATION OF THE CAUSES OF DEATH. — By counties, with the totals and percentage	80-87
VI. OCCUPATION. — Showing the number of those pursuing different avocations, the number of deaths in each, the ratio to the living, and the aggregate and average ages of those dying	88-90
VII. DIVORCES. — Exhibiting the number granted in each county, with the causes therefor; also, the ratio of divorces to marriages	91

	PAGE
VIII. DIVORCES. — Exhibiting the number granted in each county, arranged with special reference to the libellants,	92-93
RESULTS AND OBSERVATIONS	95
General Summary	95
BIRTHS	96
Sex, with ratio thereof	96
Plural births	97
Illegitimate births	97
Stillborn	97
MARRIAGES	97
Nativity of those married	97
DIVORCES	97
DEATHS	98
Ages, average, with numbers at different ages	98
Sex, nativity, season	99
CAUSES OF DEATH, General Classification	99
CAUSES OF DEATH IN DETAIL	100

REGISTRATION
OF
BIRTHS, MARRIAGES, AND DEATHS
IN
VERMONT.

RETURNED TO THE SECRETARY'S OFFICE FOR THE YEAR
ENDING DECEMBER 31, 1885.

RESULTS AND OBSERVATIONS.

1885.

GENERAL SUMMARY.

DURING the year ending Dec. 31, 1885, the whole number of births recorded in the State was 6,592, of which 3,344 were males, and 3,236 were females, 12 unknown. Compared with 1884, the number of births was 73 less, and with 1883 it was 33 greater. The difference in the proportion of the sexes was 108, in 1884 it was 76.

During the same period, the number of couples married was 2,709, a number less by 108 couples than in 1884, when it was 2,686.

The number of decedents for the same period was 5,358, of which 2,664 were males, and 2,652 were females. Of 42 the sex is not stated. Compared with 1884, the number of decedents was 125 greater, and with 1883 it was 154 greater.

The population of the State by the census of 1880 was 332,286. There was, therefore, during the year, one birth to every 50.4 of the population, against one to every 50 in 1884, and one to every 50.6 in 1883. One person in every 61.3 was married during the year, against one to every 61.6 in 1884. There was one decedent to every 62.0 of the population, against one to every 63.5 in 1884, and one to every 63.8 in 1883. These figures indicate a decrease of mortality in the State for the last two years.

The following table groups together the main facts in the registration of births, marriages, and deaths during the twenty-nine years covered by these reports:—

YEARS.	Whole No. of Births.	Stillborn.	Living Births.	Marriages.	Deaths.
1857-1861 . . .	32,682	645	32,037	11,391	18,753
1862-1866 . . .	27,512	383	27,129	11,343	24,538
1867-1871 . . .	36,260	828	35,432	14,109	22,313
1872-1876 . . .	35,950	1,018	34,932	13,538	25,914
1877	7,375	197	7,178	2,615	4,992
1878	6,870	235	6,635	2,770	4,896
1879	6,843	251	6,592	2,708	5,144
1880	6,632	228	6,404	2,697	5,260
1881	6,761	240	6,521	2,763	5,557
1882	6,331	223	6,108	2,883	5,481
1883	6,559	211	6,348	2,834	5,204
1884	6,665	176	6,489	2,686	5,233
1885	6,592	175	6,417	2,709	5,353
Totals . . .	191,032	4,810	186,222	75,048	138,663
Average . .	6,587	165.9	6,490	2,588	4,781

BIRTHS.

In the following table we group together the whole number of births registered in the State for twenty-nine years, 1857-1885 inclusive, together with the annual birth-rate, the average birth-rate for four quinquennial periods, population to one birth, and number of each sex for the same periods:—

YEARS.	Whole No.	Average Birth-rate.	Population to 1 Birth.	Males.	Females.	Unknown.
1857-1861 .	32,682	2.06	48.4	16,506	15,724	452
1862-1866 .	27,512	1.77	56.6	14,126	13,215	171
1867-1871 .	36,260	2.05	45.6	18,710	17,110	440
1872-1876 .	35,950	2.16	45.9	18,417	17,430	53
1877-1881 .	32,481	2.10	48	16,139	16,251	91
1882 . . .	6,331	1.95	52.4	3,239	3,078	14
1883 . . .	6,559	1.97	50.6	3,471	3,077	11
1884 . . .	6,665	2.05	50.0	3,368	3,292	5
1885 . . .	6,592	1.98	50.4	3,344	3,236	12
Total . .	191,032	—	—	97,320	92,463	1,249
Average .	6,587	1.73	—	3,355	3,202	43.06

From this table it appears that the whole number of births in the State during the twenty-nine years covered by these registration reports is 188,222, which exceeds the whole number of decedents in the same period by 50,441. These figures, still-births excluded, indicate an annual increase of population of the State of more than 1,000 for the year 1885.

Sex.—The proportion of the sexes born during the year 1885 was 103 males to every 100 females.

The counties were prolific in proportion to population as follows:—

Population.	Counties.	Births.
32,792 . .	Chittenden . .	900, or 1 birth to every 36.4 of its population.

Plural Births. — The number of plural births reported for 1885 is 119, against 73 in 1884. Of these, 63 were males, and 54 females. Of 2 the sex is not stated.

The largest number of these births was in Chittenden County, 20; then Orleans, 19; Addison, 14; Franklin, 12; Windsor, 9; Caledonia and Windham each had 8; Lamoille, Orange, and Washington had 4 each, and Bennington and Grand Isle 2 each.

Illegitimates. — The whole number of illegitimate births recorded during the year was 45. Of these, 27 were males, and 18 were females. In 1884, 55 were recorded, while in 1883 there were 53. Chittenden County takes the lead with 12. Last year, Franklin headed the list with 11. After Chittenden follow Orleans, 8; Windham, 5; Franklin, 4; Caledonia, 3; Addison, Bennington, Orange, Rutland, and Washington, 2 each; Lamoille, 1; Essex and Grand Isle each having none.

Stillborn. — The number for 1885 is 175, as against 176 in 1884. Of these, 97 are reported as males, 70 as females, and 8 unknown.

Parentage. — 4,789 are recorded as of American, 1,539 as of foreign, and 193 as of unknown, parentage. In 1884 the number was 4,803 American, and 1,644 foreign. The largest number of births with foreign parentage was in Chittenden County, where they amounted to 329; and in Rutland County, where they numbered 281.

MARRIAGES.

The whole number of marriages recorded during the year ending Dec. 31, 1885, was 2,709. This is 18 less than in 1884. Of the persons married, 5,021 are reported as of American, and 836 as of foreign, parentage. In 1884 the number was 4,554 American, and 946 foreign, parentage. Rutland, Franklin, and Chittenden Counties take the lead in marriages among the foreign population, with respectively 167, 147, and 129. In marriages among the American population, Windham with 546, Rutland with 487, and Chittenden with 461, take the lead.

DIVORCES.

During the year ending Dec. 31, 1885, the number of divorces granted by the courts of Vermont was 94. The ratio of divorces to marriages in the State was 1 to every 28.7 marriages. Of the "causes of divorce," 14, or a little more than one-sixth, were for "adultery," 15 for "intolerable severity," 31 for "desertion," 25 for "wilful desertion," 1 for "refusal to support," 5 for "neglect and refusal to support," 1 for "connubial frigidity," 1 for "desertion

and refusal to support," and 1 for "intolerable severity and refusal to support." The wife was the libellant in 68 instances, and the husband in 26. The largest number of divorces granted was in Orleans County, where they amounted to 13, or 1 in 19.5 of all the marriages in the county. In Addison, there were 11, or 1 in 15.9; in Chittenden, 11, or 1 in 27.1; in Essex, 11, or 1 in 25.8; in Windsor, 11, or 1 in 25.9; in Rutland, 9, or 1 in 32.1; in Caledonia, 6, or 1 in 33; in Orange, 6, or 1 in 25.7; in Windham, 6, or 1 in 41.5; in Bennington, 2, or 1 in 59.5; in Washington, 2, or 1 in 93; and in Grand Isle, 1, or 1 in 35. In Essex County no divorces were granted.

DEATHS.

The whole number of decedents registered during the year 1885 was 5,358, an increase of 125 from 1884, when the number was 5,233. The number per quarter was 1,314; per month was 438; per week was 101; per day, a fraction over fourteen.

The death-rate for the year was 1.61 nearly.

AGES. — The aggregate ages given of all the decedents was 222,512; the average age was 41.95. By counties, the average of the decedents was, Orange, 51.36; Windham, 49.25; Windsor, 48.27; Addison, 46.50; Lamoille, 46.53; Washington, 45.97; Bennington, 42.31; Caledonia, 40.78; Franklin, 39.88; Rutland, 38.91; Essex, 36.42; Grand Isle, 34.91; Orleans, 33.30; Chittenden, 31.91.

The decedents under one year of age were 896. Deducting the "stillborn," the number of decedents under one year of age from disease was 196, or about one-eighth of the entire mortality of the State. The decedents from one to two years of age were 721; from two to five, 196; from one to five, 382, or about one-fourteenth of the whole number of decedents; from five to ten the number was 115; from ten to fifteen, 111; from fifteen to twenty, 178; from twenty to thirty, 388; from thirty to forty, 365; from forty to fifty, 322; from fifty to sixty, 427; from sixty to seventy, 637; from seventy to eighty, 820, or more than one-sixth of the entire mortality of the State; from eighty to ninety, 557; from ninety to one hundred, 109; over one hundred, 3.

The percentage of decedents by counties of both sexes is shown in the following table: —

Counties.	Deaths.	Percentage.	Counties.	Deaths.	Percentage.
Addison . .	{ Males, 189	1.56	Lamoille . .	{ Males, 84	1.38
	{ Females, 178	1.48		{ Females, 119	1.73
Bennington .	{ Males, 131	1.18	Orange . .	{ Males, 190	1.68
	{ Females, 124	1.14		{ Females, 177	1.52
Caledonia . .	{ Males, 167	1.39	Orleans . .	{ Males, 218	1.91
	{ Females, 183	1.57		{ Females, 184	1.71
Chittenden .	{ Males, 314	1.94	Rutland . .	{ Males, 340	1.59
	{ Females, 306	1.84		{ Females, 340	1.65
Essex . .	{ Males, 53	1.26	Washington .	{ Males, 202	1.60
	{ Females, 53	1.43		{ Females, 224	1.74
Franklin . .	{ Males, 204	1.36	Windham . .	{ Males, 229	1.71
	{ Females, 218	1.43		{ Females, 219	1.63
Grand Isle .	{ Males, 31	1.49	Windsor . .	{ Males, 298	1.71
	{ Females, 28	1.36		{ Females, 278	1.56

Whole number of decedents, — males, 2,664; per cent, 1.62.

Whole number of decedents, — females, 2,650; per cent, 1.62.

In Vermont Asylum for the Insane, 33; unknown, 42.

Total, 5,356; per cent, 1.61.

SEX. — The number of decedents reported in 1885, not including those occurring in the Vermont Asylum for the Insane, many of which are doubtless reported in the towns whence such persons went to the asylum, was 2,650 males, and 2,631 females, with 42 "unknown." The excess of males is 19.

CAUSES OF DEATH.

During the year 1885 there were 813 deaths from zymotic diseases. In 1884 there were 788 deaths; in 1883 there were 869. The percentage of deaths from this class in 1885 was 1.64. In 1884 it was 1.60; in 1883 it was 1.67.

The number of deaths from constitutional diseases in 1885 was 1,117; in 1884, 1,077; in 1883, 1,067. The percentage in 1885 was 2.25; in 1884, 2.19; in 1883, 2.05.

The number of deaths from local diseases in 1885 was 2,117; in 1884 it was 2,048; in 1883, 2,005. The percentage in 1885 was 4.27; in 1884 it was 4.10; in 1883, 3.85.

From developmental diseases in 1885 there were 727 deaths; in 1884 there were 795; in 1883, 795. The percentage was 1.46; in 1884 it was 1.62; in 1883, 1.52. In 1885 there were 174 deaths from violent causes; in 1884, 197; in 1883, 172. In 1885 the percentage was .35; in 1884, .40; in 1883, .33.

1883. Whole number of decedents, 5,204.	1884. Whole number of decedents, 5,233.	1885. Whole number of decedents, 5,328.

REPORT.

STATE OF VERMONT.

OFFICE OF SECRETARY OF STATE,
MONTPELIER, Sept- 1, 1887.

TO THE GENERAL ASSEMBLY :

In compliance with the provisions of law, I have the honor to herewith submit the Thirtieth Annual Report relating to the Registry of Births, Marriages, Deaths, and Divorces that have occurred in the State during the year ending December 31, 1886.

Very respectfully,

CHARLES W. PORTER,

Secretary of State.

CONTENTS.

T A B L E S .

	PAGE.
I. GENERAL ABSTRACT.—Population in 1880, Births, Marriages, and Deaths, registered in each town, in 1886, distinguishing the sex and parentage of Births; the nativity of Marriages; the sex, aggregate and average ages; and the percentage of deaths	2-24
<i>Recapitulation.</i> —Births, Marriages, and Deaths, by counties,	20-21
<i>Supplement A.</i> —Plural Births by counties, by months, and by sex	22
<i>Supplement B.</i> —Illegitimate Births by counties, by months, and by sex	23
II. MARRIAGES.—By counties and by months	24
III. DEATHS ACCORDING TO AGE.—Showing the number of each sex at different ages in each town and county, with the population and percentage	26-63
<i>Recapitulation.</i> —Of deaths, according to age and sex, with percentage	64-65
IV. CAUSES OF DEATH.—Alphabetically arranged showing the number of each sex dying at different ages during the several months, with the various diseases	66-75
V. CLASSIFICATION OF THE CAUSES OF DEATH.—By counties, with the totals and percentage	76-87
VI. OCCUPATION.—Showing the number of those pursuing different avocations, the number of deaths in each, the ratio to the living, and the aggregate and average ages of those dying	88-90
VII. DIVORCES.—Exhibiting the number granted in each county, with the causes therefor; also, the ratio of divorces to marriages	91
VIII. DIVORCES.—Exhibiting the number granted in each county, arranged with special reference to the libellants	92-93

RESULTS AND OBSERVATIONS.

1886.

GENERAL SUMMARY.

DURING the year ending December 31, 1886, the whole number of births recorded in the State was 6,484, of which 3,302 were males, and 3,178 were females, 4 unknown. Compared with 1885, the number of births was 108 less, and with 1884, it was 731 less. The difference in the proportion of the sexes was 124, in 1885, it was 108.

During the same period, the number of couples married was 2,585, a number less by 101 couples than in 1885, when it was 2,686.

The number of decedents for the same period was 5,099, of which 2,556 were males, and 2,514 were females. Of 29 the sex is not stated. Compared with 1885, the number of decedents was 153 less, and with 1884, it was 135 less.

The population of the State by the census of 1880, was 332,286. There was, therefore, during the year, one birth to every 51 of the population, against one to every 50.4 in 1885, and one to every 50 in 1884. One person in every 61.5 was married during the year, against one to every 61.6 in 1885. There was one decedent to every 66.2 of the population, against one to every 62.9 in 1885, and one to every 63.8 in 1884. These figures indicate an increase of mortality in the State during the last year.

The following table groups together the main facts in the registration of births, marriages, and deaths during the thirty years covered by these reports:—

YEARS.	Whole No. of Births.	Stillborn.	Living Births.	Marriages.	Deaths.
1857-1861	32,682	645	32,037	11,931	18,753
1862-1866	27,912	383	27,129	11,343	24,538
1867-1871	36,260	828	35,432	14,109	22,318
1872-1876	35,950	1,018	34,932	13,538	25,914
1877	7,375	197	7,178	2,615	4,992
1878	6,870	235	6,635	2,770	4,896
1879	6,843	251	6,592	2,708	5,164
1880	6,632	228	6,404	2,697	5,260
1881	6,761	240	6,521	2,763	5,557
1882	6,331	223	6,108	2,883	5,481
1883	6,559	211	6,348	2,836	5,204
1884	6,665	176	6,489	2,686	5,233
1885	6,592	175	6,417	2,709	5,358
1886	6,484	178	6,316	2,585	5,019
Totals	197,516	4,988	195,138	77,633	143,682

BIRTHS.

In the following table we group together the whole number of births registered in the State during the thirty years, 1857-1886 inclusive, together with the average birth rate for five quinquennial periods, the annual for two years, population to one birth and number of each sex for the same periods:—

YEARS.	Whole No.	Average Birth-rate.	Population to 1 Birth.	Males.	Females.	Unknown
1857-1861 .	32,682	2.06	48.4	16,506	15,724	452
1862-1866 .	27,512	1.77	56.6	14,126	13,215	171
1867-1871 .	36,260	2.05	45.6	18,710	17,110	440

1886 . . .	6,404	—	51	2,456	2,514	29
Total . .	197,516	—	—	99,875	94,977	1,278

From the above table it appears that the whole number of living births in the State during the thirty years covered by these Registration Reports, is 195,138, which exceeds the whole number of decedents during the same period by 41,456. These figures indicate an increase of the population of the State of more than 1,000 during the year 1886.

The number of births, and the proportion of births to the population in the several counties, were as follows:—

Population.	Counties.	Births.				
32,792 . .	Chittenden .	883, or one birth to every 36 of its population.				
4,124 . .	Grand Isle .	105, “ “ 39.2 “ “				
41,824 . .	Rutland . .	934, “ “ 44.7 “ “				
7,931 . .	Essex . . .	226, “ “ 35.1 “ “				
12,684 . .	Lamoille . .	256, “ “ 49.5 “ “				
23,607 . .	Caledonia .	436, “ “ 54.1 “ “				
22,083 . .	Orleans . .	476, “ “ 46.3 “ “				
30,225 . .	Franklin . .	686, “ “ 44 “ “				
25,404 . .	Washington .	447, “ “ 56.8 “ “				
21,950 . .	Bennington .	265, “ “ 82.8 “ “				
24,173 . .	Addison . .	462, “ “ 52.3 “ “				
26,763 . .	Windham . .	430, “ “ 62.2 “ “				
35,196 . .	Windsor . .	646, “ “ 64.4 “ “				
53,525 . .	Orange . . .	332, “ “ 70.8 “ “				

Plural Births.—The number of plural births reported for 1886 is 113, against 119 in 1885. Of these 63 were males, and 50 females.

The largest number of these births were in Franklin and Rutland counties, 18 each; then Orleans, Washington and Windsor, 12 each; Addison

10; Chittenden 9; Essex and Windham 6 each; Bennington and Orleans each had 4; Caledonia 2; and Grand Isle and Lamoille had none.

Illegitimates.—The whole number of illegitimate births recorded during the year was 54. Of these 32 were males, and 22 were females. In 1885, 45 were recorded, while in 1884 there were 55. Chittenden County takes the lead with 10. After Chittenden follow Rutland 8; Orleans 6; Essex, Washington and Windsor 5 each; Bennington, Caledonia, Orange and Windham 3 each; Addison 2; Lamoille 1; Franklin and Grand Isle each having none.

Stillborn.—The number for 1886 is 179, as against 175 in 1885. Of these 89 are reported as males, and 89 as females.

Parentage.—4,761 are recorded as of American, 1,529 as of foreign, and 143 as of unknown, parentage. In 1885 the number was 4,789 American, and 1,644 foreign. The largest number of births with foreign parentage was in Chittenden County, where they amounted to 311; and in Rutland County, where they numbered 280.

MARRIAGES.

The whole number of marriages recorded during the year ending Dec. 31, 1886, was 2,585. This is 100 less than the number of marriages in 1885. Of the persons married, 4,284 are reported as of American, and 656 as of foreign parentage. In 1885 the number 5,021 of American, and 636 of foreign parentage. Franklin, Orleans and Chittenden take the lead in marriages among the foreign population, with, respectively, 164, 153 and 105. In marriages among the American population, Chittenden with 478, Rutland with 450, and Windsor with 454, take the lead.

DIVORCES.

During the year ending Dec. 31, 1886, the number of divorces granted by the courts of Vermont was 129. The ratio of divorces to marriages in the State was 1 to every 20.03 marriages. Of the "causes of divorce" 26 were for "adultery," 48 for "intolerable severity," 18 for "desertion," 26 for "wilful desertion," 1 for "refusal to support," 1 for adultery and intolerable severity," 1 for "confinement in prison," 1 for "neglect and refusal to support." The wife was libellant in 95 instances, and the husband in 34. The largest number of divorces granted was in Washington and Windsor counties, where they amounted to 16; in Franklin 15, or 1 in 17; in Caledonia 11, or 1 in 18.09; in Lamoille 6, or 1 in 19.66; in Windham 9, or 1 in 24.55; in Orange 13, or 1 in 9.83; in Addison 2, or 1 in 81; in Bennington 4, or 1 in 26.75; in Chittenden 9, or 1 in 32.96; in Orleans 10, or 1 in 25.40.

DEATHS.

The whole number of deaths registered during the year 1886 was 5,099. This is less by 288 than the number of deaths occurring in 1885.

Ages.—The aggregate ages given of all the decedents was 303,163. The

average age at death was 60.40. By counties the average age of decedents was: In Orange, 52.43; in Windsor, 54.17; in Windham 47.40; in Rutland, 40.31; in Caledonia, 38.41; in Washington, 45.14; in Addison, 42.94; in Franklin, 38.76; in Chittenden, 32.95; in Bennington 39.08; in Essex, 34.54; in Lamoille, 42.26; in Grand Isle, 40.50; and in Orleans, 52.42.

The decedents under 1 year of age were 897. Deducting the "stillborn" the number of decedents under 1 year of age from disease was 548, or over one-ninth of the entire mortality of the State. The decedents from 1 to 2, were 162: from 2 to 5, 209; from 1 to 5, 331; from 5 to 10, 119; from 10 to 15, 97; from 15 to 20, 159; from 20 to 30, 400; from 30 to 40, 299; from 40 to 50, 288; from 50 to 60, 354; from 60 to 70, 546; from 70 to 80, 761; from 80 to 90, 514; and from 90 to 100, 96.

The percentage of decedents of both sexes is shown by counties, in the following tables:—

Counties.	Deaths.	Percentage.	Counties.	Deaths.	Percentage.
Addison . .	{ Males, 160	1.32	Lamoille . .	{ Males, 108	1.51
	{ Females, 161	1.33		{ Females, 88	1.40
Bennington .	{ Males, 424	1.11	Orange . .	{ Males, 178	1.49
	{ Females, 91	.83		{ Females, 167	1.43
Caledonia . .	{ Males, 168	1.40	Orleans . .	{ Males, 182	1.61
	{ Females, 193	1.65		{ Females, 140	1.30
Chittenden .	{ Males, 297	1.84	Rutland . .	{ Males, 347	1.15
	{ Females, 300	1.79		{ Females, 310	1.51
Essex . .	{ Males, 71	1.70	Washington	{ Males, 207	1.64
	{ Females, 78	2.07		{ Females, 220	1.71
Franklin . .	{ Males, 201	1.34	Windham . .	{ Males, 224	1.67
	{ Females, 228	1.49		{ Females, 226	1.68
Grand Isle .	{ Males, 17	.81	Windsor . .	{ Males, 250	1.42
	{ Females, 38	1.71		{ Females, 275	1.54

Whole number of decedents,—males, 2,534; per cent. 1.53.

Whole number of decedents,—females, 2,502, per cent. 1.51.

Unknown, 29.

Total, 5075; per cent. 1.51

Sex.—The number of decedents reported in 1885 was 2,664 males and 2,650 females. The excess of deaths among females, over males, is 32, as against 19, in 1884.

CAUSES OF DEATH.

In the tables of the causes of death an attempt has been made to eliminate cases that had evidently been reported from two different towns, the one in which the death actually took place, and the one in which the decedent had previously resided or to which the remains were carried for interment.

The causes of death have been specified in 4,972 cases, being over 97 per cent., leaving a somewhat smaller number than usual, less than three per cent., not specified. Perhaps, however, the less number of not specified may be in part accounted for by the fact that many infants have been classified as "infantile," that may formerly have been included in the "not specified," since they were reported as deaths from "want of breath," "lack of vitality," "never well from birth," etc.

The deaths from zymotic diseases have gradually, but almost constantly, decreased, year by year, since 1881, when they numbered 1077.

In 1882	they	numbered	907.
" 1883	"	"	844.
" 1884	"	"	747.
" 1885	"	"	779.
" 1886	"	"	722.

Before 1880 they had numbered about 1,000 during each year.

This continued decrease in the number of deaths from zymotic diseases is certainly very gratifying. If it can, and very likely it may, be honestly attributed to a more general knowledge and attention to the principles of hygiene, it is a very efficient argument in favor of those principles, and the importance of disseminating still more information in regard to them, and gives great encouragement to our State Board of Health, recently organized, to redouble their exertions, in hopes that ere long diphtheria, scarletina, measles, typhoid fever, and even cholera infantum may become as rare as small-pox is now.

No epidemic prevailed extensively during the year past, although some towns have reported a larger number than usual of deaths from certain diseases.

Only one case of death from *small-pox* has been reported, a French girl, aged nine, in Fayston, Washington county.

Scarletina has prevailed to a somewhat greater extent than in the previous year, causing 71 deaths. The largest number of deaths from this disease was reported in Castleton, where there were 15 decedents, and a very few in the adjoining towns, only 21 in Rutland county. Brattleboro reported nine deaths from scarletina.

Not half as many deaths were caused by *measles* as during 1885, when there were reported 56, but in 1886 there were only 27 reported.

Diphtheria was not quite as fatal. In 1885 there were 133 decedents. In 1886 only 112. The average for the past 30 years is 241.

Typhoid fever has also exhibited a diminished mortality, the deaths from this cause numbering 93, while in 1885 they numbered 120.

The number of deaths from *Constitutional* and *Local* causes remains about the same, year after year. Each, however, has been somewhat less during the last year than during the preceding year, being respectively 77 and 137 less in 1886 than in 1885.

Cancer carries off about the same number each year. In 1885 the number was 192, in 1886 it was 188.

Consumption claimed fewer victims than during the preceding year. Only 649 deaths were attributed to this cause, while during 1885 there were 782. The average number of deaths from consumption during the last 30 years is 774. The number for 1886 falls short of this average by 125. Consumption is a disease which is insidious in its onset, wearisome in its progress and deadly in its results. There are some erroneous ideas in regard to it that ought to be corrected before sanitary advancement can be made. It is generally supposed that consumption is invariably a hereditary disease, and that it is one of those mysterious and impressive workings of Providence to which we should bow in unquestioning submission. Far from it; scientific investigation has given a more cheerful view. It has shown that 75 per cent. of all cases originate in the patients themselves; that only 25 out of every 100 can be traced to hereditary influence. Again, it has for generations been supposed that it was necessarily fatal; that when a physician declared the disease to be consumption it was equivalent to signing the patient's death warrant. But this is not so; very many, under favorable circumstances, recover. Another popular error is that consumption is not communicable. Villeman, more than 20 years ago, showed that tubercle could be inoculated. Since then it has been proved that tubercle may be transmitted by inhalation of a tuberculous atmosphere and by the ingestion of the flesh and milk of infected animals. A few years ago Koch, the German scientist, demonstrated the existence of a specific germ of tuberculosis. Inferences from these facts are obvious. By proper precautions and attention to sanitary laws this dreaded scourge, the disease which carries off more than twice as many as any other in our state, and these, too, mostly in the prime of life, may be very much restricted if not entirely stopped.

The deaths from diseases of the *Nervous System* were 26 less than those during 1885.

The number of deaths caused by diseases of the *Organs of Circulation* were about the same as during the year before.

Those from diseases of the *respiratory organs* were considerably less. From *pneumonia* alone there were 150 less. In 1885 the deaths from this cause were 532, while in 1886 there were only 382.

Diseases of the *Organs of Digestion* were more prevalent, 235 against 179 in 1885.

As *Old Age* can scarcely be called a disease it is presumable that whenever an old person died of an obscure or not very obvious cause, it was reported as death from old age. The number of deaths so reported in 1886 was 426, somewhat more than those so reported during the previous year, which was 388; but about the same as during 1884. This is in slightly

greater ratio to the population than in Connecticut, and nearly twice as many as in Rhode Island. But in Rhode Island the records are probably more accurately kept than in any other state, the causes of death more carefully stated, and fewer deaths escape recording. As this is a sort of residual class into which the deaths of all old people are put when no special cause of death is assigned, no reliable inference can be drawn as to the effect of our locality upon longevity. A more correct inference can be drawn from the number dying at or over a certain age of all diseases, including old age. Taking 80 years or over, out of each 10,000 of the population, 13 die in Rhode Island, 16 in Connecticut and 19 in Vermont. That is, more persons live to a good old age in Vermont. Only two persons, however, died during the year, who had completed a century or over. Kate Sears, an American married woman, is reported to have died in Danby, Rutland county, at the age of 107. And Peter O'Hearn, in Sheldon, Franklin county, at the age of 100.

The following table shows the aggregate and the average number of deaths from a few of the most prevalent diseases during the 30 years, 1857 to 1886 inclusive, which these reports cover. The number for 1886 is also given for comparison, although included in the aggregate.

DISEASES.	AGGREGATE.	AVERAGE.	1886.
Consumption	23,229	774	649
Pneumonia	10,327	344	532
Old age.	9,385	313	426
Fevers	8,194	273	141
Diphtheria	7,236	241	112
Diseases of the Heart	6,981	233	425
Scarletina	3,954	132	71
Cancer	3,914	131	188

A table has been constructed, showing in connection with the classified causes of death, the nativities and social relations of the decedents. It is hoped by this table to show what influence, if any, these facts have upon the mortality from different diseases. Of course it cannot be expected that the small number of facts contained in this first table can be the foundation of reliable inferences. But as the facts accumulate from year to year, they may furnish a vast amount of information.

Rheumatism, heretofore classed among zymotic diseases in the reports of this State, has been removed to its proper place among diathetic diseases in the constitutional class.

THIRTY-FIRST REPORT

TO THE

LEGISLATURE OF VERMONT,

RELATING TO THE

REGISTRY AND RETURNS

OF

BIRTHS, MARRIAGES, DEATHS AND DIVORCES

IN THE STATE,

FOR THE YEAR ENDING DEC. 31, A. D. 1887.

PREPARED BY CHARLES W. PORTER.

SECRETARY OF STATE.

RUTLAND:

THE TUTTLE COMPANY, OFFICIAL STATE PRINTERS.

1888.

29582.

REPORT.

STATE OF VERMONT.

OFFICE OF SECRETARY OF STATE,
MONTPELIER, Sept. 1, 1888.

TO THE GENERAL ASSEMBLY :

In compliance with the provisions of law, I have the honor to herewith submit the Thirty-first Annual Report relating to the Registry of Births, Marriages, Deaths and Divorces that have occurred in the State during the year ending December 31, 1887.

Very respectfully,

CHARLES W. PORTER,

Secretary of State.

CONTENTS.

TABLES.

	PAGE.
I. GENERAL ABSTRACT.—Population in 1880, Births, Marriages, and Deaths, registered in each town, in 1887, distinguishing the sex and parentage of Births; the nativity of Marriages; the sex, aggregate and average ages; and the percentage of deaths,	2-19
<i>Supplement A.</i> —Plural Births by counties, by months, and by sex,	20
<i>Supplement B.</i> —Illegitimate Births by counties, by months, and by sex,	21
<i>Recapitulation.</i> —Births, Marriages, and Deaths by counties,	22-23
II. MARRIAGES.—By counties and by months,	24
II. DEATHS ACCORDING TO AGE.—Showing the number of each sex at different ages in each town and county, with the population and percentage,	25-69
<i>Recapitulation.</i> —Of deaths, according to age and sex, with percentage,	70-71
V. CAUSES OF DEATH.—Alphabetically arranged, showing the number of each sex dying at different ages during the several months, with the various diseases,	72-79
V. CLASSIFICATION OF THE CAUSES OF DEATH.—By counties, with the totals and percentage,	80-85
II. OCCUPATION.—Showing the number of those pursuing different avocations, the number of deaths in each, the ratio to the living, and the aggregate and average ages of those dying,	86-87

	PAGE.
X. DIVORCES.—Exhibiting the number granted in each county, with the causes therefor; also, the ratio of divorces to marriages,	88
XI. DIVORCES.—Exhibiting the number granted in each county, arranged with special reference to the libellants,	89-90

RESULTS AND OBSERVATIONS.

1887.

GENERAL SUMMARY.

DURING the year ending Dec. 31, 1887, the whole number of births recorded in the State was 6,452, of which 3,194 were males, and 3,247 were females, 11 unknown. Compared with 1886, the number of births was 32 less, and with 1885 it was 140 less. The difference in the proportion of the sexes was 531, in 1886 it was 124.

During the same period, the number of couples married was 2,661, a number greater by 76 couples than in 1886, when it was 2,585.

The number of decedents for the same period was 5,472, of which 2,705 were males and 2,728 were females. Of 40 the sex is not stated. Compared with 1886, the number of decedents was 373 greater, and with 1885 it was 114 greater.

The population of the State by the census of 1880 was 332,286. There was, therefore, during the year, one birth to every 51.5 of the population, against one to every 51 in 1886, and one to every 50.4 in 1885. One person in every 62.4 was married during the year, against one to every 61.5 in 1886. There was one decedent to every 60.9 of the population, against one to every 66.2 in 1886, and one to every 62.9 in 1885. These figures indicate a decrease of mortality in the State for the last two years.

The following table groups together the main facts in the registration of births, marriages and deaths during the thirty-one years covered by these reports :—

YEARS.	Whole No. of Births.	Stillborn.	Living Births.	Marriages.	Deaths.
1857-1861 . . .	32,682	645	32,037	11,391	18,753
1862-1866 . . .	27,512	383	27,129	11,343	24,588

1887	6,452	185	6,267	2,661	5,472
Totals . . .	203,968	5,173	201,405	80,294	149,154

BIRTHS.

In the following table we group together the whole number of births registered in the State for thirty-one years, 1857-1887 inclusive, together with the annual birth-rate, the average birth-rate for four quinquennial periods, population to one birth, and number of each sex for the same periods :—

YEARS.	Whole No.	Average Birth-rate.	Population to 1 Birth	Males.	Females.	Unkn'n.
1857-1861 . . .	32,682	2.06	48.4	16,506	15,724	452
1862-1866 . . .	27,512	1.77	56.6	14,126	13,215	171
1867-1871 . . .	36,260	2.05	45.6	18,710	17,110	440
1872-1876 . . .	35,950	2.16	45.9	18,417	17,480	53
1877-1881 . . .	32,481	2.10	48	16,139	16,251	91
1882	6,331	1.95	52.4	3,239	3,078	14
1883	6,559	1.97	50.6	3,471	3,077	11
1884	6,665	2.05	50	3,368	3,292	5
1885	6,592	1.98	50.4	3,344	3,236	12
1886	6,404	—	51	2,456	2,514	29
1887	6,452	—	51.5	3,194	3,247	11
Totals . . .	203,968	—	—	103,069	98,224	1,289

Sex. — The proportion of the sexes born during the year 1887 was 104 females to 100 males.

Population.	Counties.	Births.				
7,931 .	Essex . .	229, or 1 birth to every 34.6 of its population.

21,950 .	Bennington	404	"	"	51.3	"
12,684 .	Lamoille .	228	"	"	55.6	"
26,736 .	Windham .	460	"	"	58.1	"
35,196 .	Windsor .	515	"	"	68.3	"
23,525 .	Orange . .	272	"	"	86.4	"

Plural Births. — The number of plural births reported for 1887 is 120 against 113 in 1886. Of these 64 were males and 56 were females. The largest number was in Rutland County, 26; then Chittenden, 20; Franklin, 12; Addison, 10; Bennington and Orleans, 8 each; Windsor, 7; Essex and Windham, 6 each; Caledonia, 5; Lamoille, Orange and Washington, 4 each.

Illegitimates. — The whole number of illegitimate births recorded during the year was 44. Of these 23 were males and 21 females. In 1886, 54 were recorded, while in 1885, 45 were recorded. Bennington County takes the lead with 8; Addison, Windham and Windsor, 5 each; Orange and Washington, 4 each; Chittenden, Franklin, Orleans and Rutland, 3 each; Essex, 2; Caledonia, Grand Isle and Lamoille, each having none.

Stillborn. — The number for 1887 is 185, as against 173 in 1886. Of these, 96 are reported as males, 69 as females, and 20 unknown.

Parentage — 4,722 are recorded as of American, 1,587 as of foreign, and 143 as of unknown parentage. In 1886 the number was 4,761 American and 1,529 foreign. The largest number of births with foreign parentage was in Chittenden County, 274; and in Rutland County, 234.

MARRIAGES.

The whole number of marriages recorded during the year ending Dec. 31, 1887, was 2,661; 116 greater than the number in 1886.

Of the persons married, 4,392 are reported as American, and 871 of foreign parentage. In 1886, 4,284 were of American, and 636 of foreign parentage. In marriages among the foreign population, Essex and Orange lead, with 168 each, and among the American population, Windham with 497, Orleans with 485, and Washington with 446.

DIVORCES.

During the year ending Dec. 31, 1887, the number of divorces granted was 186. The ratio of divorces to marriages was 1 to every 13.52 marriages. Of the "causes of divorce" 34 were for "adultery;" 72 for "intolerable severity;" 41 for "wilful desertion;" 18 for "desertion;" 8 for "refusal to support." The wife was libellant in 133 cases, and the husband in 53. The largest number of divorces granted was in Franklin County, where they amounted to 23; in Washington, 22; in Rutland, 20; Orange and Windsor, 19 each; Windham, 16; Orleans, 15; Bennington, Caledonia and Chittenden, 11 each; Addison, 9; Lamoille, 8; Essex, 2; Grand Isle, none.

DEATHS.

The whole number of deaths registered during the year 1887, was 5,472. This is 373 greater than the number of deaths occurring in 1886.

Ages. — The aggregate ages given of all the decedents was 233,924. The average age at death was 43.25. By counties the average age of decedents was: in Windsor, 57.21; in Orange, 54.06; in Windham, 47.82; Lamoille, 46.21; Addison, 45.32; in Washington, 44.79; in Bennington, 41.64; in Caledonia, 40.51; Grand Isle, 39.93; in Orleans, 39.90; in Franklin, 37.61; in Chittenden, 35.37; in Essex, 34.04.

The decedents under 1 year of age were 823. Deducting the "stillborn," the number of decedents under 1 year of age from disease was 638, or over one-eighth of the entire mortality of the State. The decedents from 1 to 2, were 171; from 2 to 5, were 227; from 1 to 5, 398; from 5 to 10, 167; from 10 to 15, 103; from 15 to 20, 176; from 20 to 30, 374; from 30 to 40, 323; from 40 to 50, 362; from 50 to 60, 426; from 60 to 70, 523; from 70 to 80, 823; from 80 to 90, 839; from 90 to 100, 133.

The percentage of decedents of both sexes is shown by counties, in the following tables :

Counties.	Deaths.	Percentage.	Counties.	Deaths.	Percentage.
Addison. . .	{ Males, 202	1.66	Lamoille . .	{ Males, 103	1.60
	{ Females, 189	1.56		{ Females, 85	1.35
Bennington .	{ Males, 156	1.41	Orange . .	{ Males, 147	1.23
	{ Females, 159	1.47		{ Females, 171	1.47
Caledonia . .	{ Males, 208	1.74	Orleans . .	{ Males, 172	1.51
	{ Females, 170	1.46		{ Females, 183	1.70
Chittenden .	{ Males, 309	1.91	Rutland . .	{ Males, 339	1.59
	{ Females, 266	1.59		{ Females, 337	1.64
Essex . . .	{ Males, 55	1.31	Washington.	{ Males, 221	1.75
	{ Females, 70	1.86		{ Females, 252	1.96
Franklin . .	{ Males, 198	1.32	Windham .	{ Males, 230	1.72
	{ Females, 229	1.50		{ Females, 213	1.58
Grand Isle .	{ Males, 30	1.44	Windsor . .	{ Males, 280	1.60
	{ Females, 30	1.46		{ Females, 306	1.72

Whole number of decedents,—males, 2,673 ; per cent., 1.60.

Whole number of decedents,—females, 2,681 ; per cent., 1.62.

Unknown, 40.

In Vermont Asylum for Insane, 42.

Total, 5,394 ; per cent., 1.62.

Sex. — The number of decedents reported in 1887 was 2,673 males, and 2,681 females, and 40 unknown. The excess of deaths among females is 8, as against 32 in 1886.

CAUSES OF DEATH.

In 5,177 cases the causes of death have been specified. This leaves 182 cases in which the causes are unknown. The specified causes in 1886 were 4,972 ; causes not specified, 145. The per cent of specified causes for the two years are as follows : 1887, 96.60 ; 1886, 97.15. The percentage of unknown causes in 1887 was 3.40 ; in 1886, 2.85. Addison County had the largest number of unknown causes : there were 28.

In all those cases where death occurred within a few days after birth, the causes have been classified under the head of infantile diseases.

There were 811 deaths from zymotic diseases, 89 more than were reported last year. Of this class the following diseases are the ones causing the greater part of the mortality. The deaths from the same diseases for 1886 are also given :

	1887	1886
Diphtheria.....	196	112
Cholera infantum.....	143	139
Typhoid fever.....	122	93
Croup.....	72	50
Dysentery.....	57	37

Of the 196 deaths from diphtheria, 42 were from Chittenden County, 80 from Rutland County, and 26 from Franklin County. In 1886 these three counties had only 21 deaths from diphtheria. Of the 26 deaths in Franklin County, 25 were in two towns—Montgomery, 18, and Berkshire, 7. There were no deaths reported from small pox. One death was reported in 1886.

The deaths from measles have been much less than in 1886. The number is 11 in 1887, against 27 in 1886. There have been less than one-half as many cases from scarlatina as in the previous year. This year there were 33; in 1886 there were 71. There were 45 cases returned as blood poison. They were classified under the term pyæmia.

Constitutional diseases caused 1,024 deaths, 50 less than in 1886. Six hundred and fifty-one of this number were from consumption, two more than in 1886. According to the last Registration Report the yearly death rate from consumption is 744. This year the deaths number 123 less. The average number of deaths from cancer is 131. In 1887 there were 205. In 1886 there were 188. The mortality from local diseases was 40.10 per cent. There were 2,149 deaths; in 1886 there were 169 less. Of the 638 deaths from diseases of the nervous system, 242 were caused by paralysis; 129 by apoplexy. This proportion does not vary much from the preceding year.

Diseases of the organs of circulation caused about the same number of deaths as usual. The number was 462.

Diseases of the organs of respiration caused 539 deaths. In 1886 the deaths were 72 less. There were 423 deaths from pneumonia, 41 more than in 1886.

The percentage of deaths from diseases of the digestive and urinary organs remains about the same as in 1886, although this year there are 35 deaths more from digestive diseases. Deaths from digestive diseases, 270; urinary diseases, 231. Of the urinary diseases, 128 are due to Bright's disease, 29 more than last year.

All the causes of death reported as inflammation of the bowels have been classed as peritonitis; there were 101.

The disease called old age has 443 deaths, about the same percentage as in 1886. The deaths in diseases of children number 446, 40 less than last year.

The deaths from diseases of women this year are 26; in 1886 there were 35.

The number of deaths from violent diseases or injuries is 208; 183 were accidents; 215 were suicides. In 1886 the deaths from

this class numbered 206 ; 167 of these were accidents, 37 suicides, 2 homicides.

The following table exhibits some of the diseases which have caused a great part of the mortality during the past three years:

	1887	1886	1885
Consumption.....	651	649	782
Old age.....	443	426	388
Heart disease.....	439	419	439
Pneumonia.....	423	382	582
Paralysis.....	229	229	216
Cancer.....	205	188	105
Diphtheria.....	196	112	133
Cholera infantum.....	143	139	116
Typhoid fever.....	123	93	120

THIRTY-SECOND REPORT
TO THE
LEGISLATURE OF VERMONT,
RELATING TO THE
REGISTRY AND RETURNS
OF
BIRTHS, MARRIAGES, DEATHS AND DIVORCES
IN THE STATE,
FOR THE YEAR ENDING DEC. 31, A. D. 1888.

PREPARED BY CHARLES W. PORTER,
SECRETARY OF STATE.

RUTLAND:
THE TUTTLE COMPANY, OFFICIAL STATE PRINTERS
1889.

-5676-

REPORT.

STATE OF VERMONT.

OFFICE OF SECRETARY OF STATE,
MONTPELIER, Sept. 1, 1889.

TO THE GENERAL ASSEMBLY:

In compliance with the provisions of law, I have the honor to herewith submit the Thirty-Second Annual Report relating to the Registry of Births, Marriages, Deaths and Divorces that have occurred in the State during the year ending December 31, 1888.

Very respectfully,

CHARLES W. PORTER,

Secretary of State.

CONTENTS.

TABLES.

	PAGE.
I. GENERAL ABSTRACT.—Population in 1880, Births, Marriages and Deaths, registered in each town, in 1888, distinguishing the sex and parentage of Births; the nativity of Marriages; the sex, aggregate and average ages; and the percentage of deaths,	2-19
<i>Supplement A.</i> —Plural Births by counties, by months, and by sex,	22
<i>Supplement B.</i> —Illegitimate births by counties, by months, and by sex,	23
<i>Recapitulation.</i> —Births, Marriages and Deaths by counties,	20-21
II. MARRIAGES.—By counties and by months,	24
III. DEATHS ACCORDING TO AGE.—Showing the number of each sex at different ages in each town and county, with the population and percentage,	25-67
<i>Recapitulation.</i> —Of Deaths, according to age and sex, with percentage,	68-69
IV. CAUSES OF DEATH.—Alphabetically arranged, showing the number of each sex dying at different ages during the several months, with the various diseases,	70-77
V. CLASSIFICATION OF THE CAUSES OF DEATH.—By counties, with the totals and percentage,	78-83
VI. OCCUPATION.—Showing the number of those pursuing different avocations, the number of deaths in each, the ratio to the living, and the aggregate and average age of those dying,	8

VII. DIVORCES.—Exhibiting the number granted in each county, with the causes therefor; also, the ratio of divorces to marriages,	86
VIII. DIVORCES.—Exhibiting the number granted in each county, arranged with special reference to the libelants,	87-88
RESULTS AND OBSERVATIONS,	89
General Summary.	89-90
BIRTHS,	90
Sex, with ratio thereof	90-91
Plural births,	91
Illegitimate births,	91
Stillborn,	91
Parentage,	91
MARRIAGES	91-92
Nativity of those married,	92
DIVORCES,	92
DEATHS,	92
Ages, average, with numbers at different ages,	92
Sex, season,	93
CAUSES OF DEATH, General Classification	93
CAUSES OF DEATH IN DETAIL.	93-95

REGISTRATION
OF
BIRTHS, MARRIAGES AND DEATHS
IN
VERMONT.

*Returned to the Secretary's Office for the year ending
December 31, 1888.*

RESULTS AND OBSERVATIONS.

1888.

GENERAL SUMMARY.

DURING the year ending Dec. 31, 1888, the whole number of births recorded in the State was 6,535, of which 3,461 were males, and 3,065 were females, 9 unknown. Compared with 1887, the number of births was 83 greater, and with 1886 it was 151 greater. The difference in the proportion of the sexes was 396, in 1887 it was 58.

During the same period, the number of couples married was 2,647, a number less by 14 couples than in 1887, when it was 2,661.

The number of decedents for the same period was 5,775, of which 3,036 were males and 2,703 were females. Of 36 the sex is not stated. Compared with 1887, the number of decedents was 303 greater, and with 1886, it was 726 greater.

The population of the State by the census of 1880 was 332,286. There was, therefore, during the year, one birth to every 50.8 of the population, against one to every 51.5 in 1887, and one to every 51 in 1886. One person in every 62.5 was married during the year, against one to every 62.4 in 1887. There was one decedent to every 57.5 of the population, against one to every 60.9 in 1887, and one to every 66.2 in 1886. These figures indicate a decrease of mortality in the State for the last two years.

The following table groups together the main facts in the registration of births, marriages and deaths during the thirty-one years covered by these reports :—

YEARS.	Whole No. of Births.	Stillborn.	Living Births.	Marriages.	Deaths.
1857-1861 . . .	32,682	645	32,037	11,391	18,753
1862-1866 . . .	27,512	383	27,129	11,343	24,538

Plural Births.—The number of plural births reported for 1888 is 107 against 120 in 1887. Of these 69 were males and 36 were females; unknown 2. The largest number was in Rutland County, 22; then Chittenden, 21; Addison, Franklin and Windham, 10 each; Bennington and Orange, 8 each; Caledonia, 6; Washington and Windsor, 4 each; Essex and Orleans, 2 each; Grand Isle and Lamoille, none.

Illegitimates.—The whole number of illegitimate births recorded during the year was 57. Of these 28 were males and 29 females. In 1887, 44 were recorded, while in 1886 54 were recorded. Rutland County takes the lead with 8; Addison and Orange, 7 each; Chittenden and Franklin, 6 each; Orleans and Windsor, 5 each; Washington, 4; Caledonia and Windsor, 3 each; Bennington, Essex and Lamoille, 1 each; Grand Isle having none.

Stillborn.—The number for 1888 is 194, as against 185 in 1887. Of these 109 are reported as males, 62 as females, and 23 unknown.

Parentage.—4,827 are recorded as of American, 1,565 as of foreign, and 143 as of unknown parentage. In 1887 the number was 4,722 American and 1,587 foreign. The largest number of births with foreign parentage was in Chittenden County, 307; and in Rutland County, 242.

MARRIAGES.

The whole number of marriages recorded during the year ending Dec. 31, 1888, was 2,647; 14 less than the number in 1887. Of

the persons married, 4,406 are reported as American, and 824 of foreign parentage. In 1887, 4,392 were of American, and 871 of foreign parentage. In marriages among the foreign population, Franklin leads with 169, and among the American population, Rutland with 469, Windham with 454, and Windsor with 449.

DIVORCES.

During the year ending Dec. 31, 1888, the number of divorces granted was 157. The ratio of divorces to marriages was 1 to every 16.86 marriages. Of the "causes of divorce" 25 were for "adultery;" 54 for "intolerable severity;" 25 for "wilful desertion;" 28 for "desertion;" 18 for "refusal to support;" 2 for libelee in State Prison;" 3 for "severity and adultery;" 1 for "wilful desertion and refusal to support;" 1 for "desertion and adultery." The wife was libellant in 157 cases, and the husband in 38. The largest number of divorces granted was in Rutland County, where they amounted to 31; in Franklin, 19; in Washington, 17; in Windsor, 16; Addison and Orleans, 12 each; Chittenden, 11; Windham, 9; Bennington and Orange, 8 each; Caledonia, 7; Lamoille, 6; Grand Isle, 1.

DEATHS.

The whole number of deaths registered during the year 1888, was 5,775. This is 83 greater than the number of deaths occurring in 1887.

Ages.—The aggregate ages given of all the decedents was 239,033. The average age at death was 41.61. By counties the average age of decedents was: In Orange, 51.63; in Windsor, 49.07; in Windham, 48.31; in Washington, 43.35; in Addison, 43.03; in Lamoille, 41.91; in Caledonia, 41.53; in Orleans, 41.42; in Franklin, 40.07; in Bennington, 39.72; in Rutland, 37.88; in Chittenden, 31.97; in Grand Isle, 31.02; in Essex, 28.14.

The decedents under 1 year of age were 994. Deducting the "stillborn," the number of decedents under 1 year of age from disease was 900. The decedents from 1 to 2, were 184; from 2 to 5, were 253; from 1 to 5, 437; from 5 to 10, 180; from 10 to 15, 132; from 15 to 20, 180; from 20 to 30, 368; from 30 to 40, 319; from 40 to 50, 345; from 50 to 60, 426; from 60 to 70, 613; from 70 to 80, 891; from 80 to 90, 639; from 90 to 100, 113.

The percentage of decedents of both sexes is shown by counties, in the following tables :

Counties.	Deaths.	Percentage.	Counties.	Deaths.	Percentage.
Addison	{ Males, 296	1.62	Lamoille.....	{ Males, 116	1.87
	{ Females, 196	1.63		{ Females, 113	1.80
Bennington.....	{ Males, 164	1.48	Orange	{ Males, 177	1.49
	{ Females, 164	1.51		{ Females, 174	1.50
Caledonia.....	{ Males, 226	1.89	Orleans.....	{ Males, 177	1.47
	{ Females, 198	1.61		{ Females, 144	1.33
Chittenden.....	{ Males, 483	2.09	Rutland	{ Males, 372	1.28
	{ Females, 345	2.07		{ Females, 335	1.15
Essex	{ Males, 60	1.43	Washington....	{ Males, 229	2.74
	{ Females, 58	1.54		{ Females, 230	1.81
Franklin.....	{ Males, 227	1.51	Windham.....	{ Males, 268	2.06
	{ Females, 213	1.33		{ Females, 278	1.91
Grand Isle.....	{ Males, 26	1.25	Windsor.....	{ Males, 293	1.68
	{ Females, 30	1.46		{ Females, 305	1.72

Whole number of decedents—males, 3,036 ; per cent., 1.81.

Whole number of decedents—females, 2,703 ; per cent., 1.63.

Unknown, 36.

In Vermont Asylum for Insane, 42.

Total, 5,775 ; per cent., 1.71.

Sex.—The number of decedents reported in 1888 was 3,036 males, and 2,703 females, and 36 unknown. The excess of deaths among males is 333.

CAUSES OF DEATH.

The number of deaths during the year is 5,725, about 367 more than occurred in the preceding year. The specified causes number 5,576, more than 97 per cent of the whole number of deaths. There were 149 deaths returned, with the cause unknown ; in 1887, there were 182 similar cases.

The deaths from zymotic diseases, or the diseases that are epidemic, endemic or contagious number 878, or 15.33 per cent. In 1887 the number was 811, or 15.13 per cent.

The following table shows the zymotic diseases that are most fatal, also the number of deaths from each of those diseases during the last three years :

	1886	1887	1888
Diphtheria.....	112	196	197
Cholera infantum.....	139	143	196
Typhoid fever.....	93	122	129
Croup.....	50	72	64
Dysentery.....	37	57	43
Measles.....	27	11	48
Scarlatina.....	71	33	33

As is seen from this table, diphtheria is the most fatal contagious disease. Forty-six deaths from this cause were reported from Chittenden County, 32 from Rutland County, 23 from Washington County and 27 from Lamoille County. The number of deaths from cholera infantum is larger than usual. There were 40 in Rutland County, 39 in Chittenden, 16 in Addison and 14 in Bennington. No deaths occurred from small-pox in 1888 or in 1887.

Constitutional diseases formed about 19 per cent of the whole number of deaths. There were 1,093; in 1887 there were 1,024. Of the constitutional diseases, 353 were diathetic and 740 were tubercular. Of the diathetic diseases, 199 were from cancer and 94 from dropsy. In 1887, 205 were from cancer and 76 from dropsy. Of the constitutional diseases, consumption has 718, or 12 per cent of the whole number of deaths. This is about the usual percentage, although there were 67 deaths less in the year 1887. From the table it can be seen that consumption causes by far the greatest number of deaths. Consumption and pneumonia, the two diseases having the greatest mortality, were sent in as being the cause of death in 1,277 cases, forming over 22 per cent of all the deaths.

The deaths from local diseases number 2,366, which is 217 greater than in the previous year and constitutes about 40 per cent of all causes. Of the diseases of the nervous system, 272 deaths were from paralysis, 108 from apoplexy. The whole number from nervous diseases is 717. In the preceding year there were 638. From diseases of the organs of circulation or diseases of the heart, there have been 507 deaths; in 1887 there were 462.

The deaths from diseases of the organs of respiration are 689. A great part of this mortality was due to pneumonia, 559 cases being reported from this cause. The number is 136 greater than in 1887. The town of Sutton, Caledonia County, had 14 deaths, 7 of them due to pneumonia. They are deserving of mention as they all occurred in very old people. Their ages are as follows: 59 years, 62, 70, 83, 84 and 85. Johnson, Lamoille County, had 36 deaths, 14 of them from pneumonia.

The deaths from diseases of the digestive organs were 224; in 1887 there were 270.

181 deaths were due to urinary diseases, 93 cases being reported from Bright's disease, against 128 the year before.

In 412 cases, the cause of death was sent in as old age. During the previous year 443 deaths were said to be due to this cause.

Under the head of violent diseases or injuries, 207 deaths were classified, one death less than in the year before. Out of this number, 174 were from accident and 33 were suicides. This is similar to the division of this class made in 1887; 183 were accidents and 25 were suicides.

The following table exhibits some of the diseases which have caused a great part of the mortality during the past three years:

	1886	1887	1888
Consumption.....	649	651	718
Old age.....	426	443	412
Heart disease.....	419	439	505
Pneumonia.....	382	423	559
Paralysis.....	229	229	272
Cancer.....	188	205	199
Diphtheria.....	112	196	197
Cholera infantum...	139	143	196
Typhoid fever.....	93	123	129
